

Founder/CEO

Samvit is the founder and CEO of LinkMeUp. As the team's first iOS developer, Samvit built and launched LinkMeUp for iPhone. He now leads technology, hiring, and growth.

Backstory: The idea for LinkMeUp traces back to a hackathon project at Princeton, where Samvit studied computer science and physics.

Android

Sean is LinkMeUp's Android developer. He joined the team in 2015, and will be involved in launching the first version of LinkMeUp's Android app to the Google Play Store.

Product

Ananya is involved in product development at LinkMeUp. She developed the company website, and designed promotional materials for LinkMeUp.

Engineering

Sanjay advises on engineering matters at LinkMeUp. He began work on LinkMeUp's Android app, and now manages its development.
